Introduced two new Management Analysts: Abraham Macy (strategic planning, communications, and the Ask Eloy program) and Erick Lemos (economic development). Both addressed the Council and answered questions.

1. Ask Eloy Presentation:

Management Analyst Abraham Macy presented Ask Eloy, a new single-email system (ask@eloyaz.gov) for resident questions, comments, and concerns. Inquiries are logged, classified, and routed to designated department liaisons with identified backups. Since launch, nine inquiries have been logged; 100% were answered within the two-business-day target and eight of nine were answered the same day. Examples included faded roadway striping, early-morning aircraft noise (FAA jurisdiction), and zoning setback confirmation. Council discussion included follow-up and tracking procedures, backup staffing, telephone versus email responses, and a suggestion to incorporate a resident satisfaction survey, which staff agreed to review. Council expressed strong support for the program.

2. Police Chief Sergio Banales Council Briefing:

Police Chief Sergio Banales presented a video message from Pinal County Attorney Brad Miller reporting that, when prison-related incidents are separated from community-based offenses, criminal cases filed from Eloy declined nearly 25% over three years, from 246 cases in 2023 to 185 cases in 2025. Chief Banales reported on department initiatives, including a new Support Services Supervisor, Operations Sergeant, and Personnel and Training Corporal; a formal department training plan; monthly management meetings; a three-year strategic plan; succession planning; implementation of Lexipol policy management; upgraded Axon body cameras with AI-assisted report writing; an employee wellness program; and expanded community engagement programs (Coffee with a Cop, Cops and Clergy, Adopt-a-School, National Night Out, Christmas with a Cop, and Red Ribbon Week). Councilmembers praised the department's community policing efforts and shared personal accounts of positive interactions with officers and staff.

3. Quarterly Financial Report for the Period Ending June 30, 2026:

Finance Director Brian Wright presented the preliminary quarterly financial report for the period ending June 30, 2026. Highlights included:

The General Fund ended the fiscal year with an approximately \$9.3 million negative variance, as expected, due to transfers to other funds for capital projects; excluding those transfers, the General Fund ended approximately \$5.4 million positive.

Local sales tax collections totaled approximately \$11.1 million, approximately \$1.5 million above budget, driven largely by construction sales tax (\$1.4 million in the fourth quarter compared to \$329,000 in the same quarter of the prior year).

Manufacturing tax collections were up approximately 40%, wholesale up approximately 31%, and utilities/communications up approximately 14%.

State shared revenue decreased by approximately \$340,000, as anticipated.

Water, wastewater, and sanitation funds ended the year with positive operating variances.

All departments operated within their adopted budget authority; several capital projects will roll over to fiscal year 2026-2027.

TO: Mayor and City Council

DISCUSSION:

The City Attorney was advised by the Interim City Clerk that she had discovered scrivener's errors in the numbering of approximately four (4) resolutions. City Staff is submitting these four resolutions for Council approval to assign each one a new, corrected resolution number. Each resolution will remain effective as of its original date of passage by the City Council. The other resolution, which was passed with the same number, will not be affected by this amended resolution.

It has come to the attention of the Interim City Clerk that there are two Resolutions, Nos. 25-1631. One resolution addresses a Conditional Use Permit to Allow Outdoor Storage on the properties located at 4650 and 4712 N. Tumbleweed Road, Eloy, Arizona, Case No. CUP2025-005, Desert Septic approved on September 8, 2025, and one that was a Resolution Authorizing an Application to the Arizona Smart Fund for a Grant for Design and other Engineering Services/Match/Grant

CITY OF ELOY

REQUEST FOR COUNCIL ACTION

Agenda Item: **VII.F.**

Date: **8/24/2026**

Date submitted:
08/17/2026

Action: Ordinance

Subject: An Ordinance 26-1005 of the Mayor and City Council of the City of Eloy, Pinal County, Arizona, Adding Section 12-2(D) to the Eloy City Code Authorizing the City Attorney and City Clerk to Correct Scrivener's Errors in the City Code, Ordinances, Resolutions, and Minutes Adopted by the City Council or Other Public Body; Repealing Conflicting Provisions, and Setting an Effective Date.

Date requested:
8/24/2026

TO: Mayor and City Council

FROM:

RECOMMENDATION:

Staff recommends the adoption of Ordinance No. 26-1005, adding Section 12-2(D) to the Eloy City Code, authorizing the City Attorney and City Clerk to correct scrivener's errors in the City Code, ordinances, resolutions, and minutes adopted by the City Council or other public body, without the need for re-adoption.

DISCUSSION:

The Interim City Clerk discovered scrivener's errors in the numbering of four resolutions adopted in 2025, each of which had been assigned a resolution number that had already been used for a prior resolution. Each of these duplicate numbering errors required Council to separately adopt a corrective resolution renumbering the affected item.

Going forward, the City Clerk's Office will monitor the issuance of resolution and ordinance numbers to help prevent duplicate assignments. City Staff is also submitting this corrective Ordinance for Council's approval to establish a standing procedure for addressing any scrivener's errors that may still occur.

To address the recurrence of this issue and provide a standing procedure for correcting similar clerical errors going forward, City Staff and the City Attorney's Office have prepared this Ordinance adding Section 12-2(D) to the Eloy City Code. The Ordinance authorizes the City Attorney and City Clerk to correct scrivener's errors defined to include misspellings, grammatical errors, numbering errors, cross-referencing errors, and inconsistencies with the City's adopted style rules, in the City Code, ordinances, resolutions, and minutes, without requiring the underlying item to be re-adopted by Council.

Each correction made under this authority must be accompanied by a scrivener's note and reported to Council within three months at a regular meeting. The Ordinance further provides that no correction made under this authority may constitute a substantive alteration, or otherwise change the meaning, intent, or effect, of the originally adopted item; any correction that would substantively alter the original action still requires formal action by the City Council or applicable public body.

FISCAL IMPACT:

None. This Ordinance establishes an administrative correction procedure and has no fiscal impact to the City.

Current Market Themes

- ▶ U.S. growth remains resilient as AI-driven investment offsets a moderating consumer
 - ▶ Headline inflation may be at or near its peak as the energy shock fades, though flare-ups in the Middle East conflict and potential delayed passthroughs to core inflation remain key risks
 - ▶ The labor market is in balance, though real wage growth remains modest
 - ▶ AI investment continues to drive growth while fueling inflation in tech-related categories
- ▶ The Federal Reserve (Fed) left policy rates unchanged at 3.50-3.75%
 - ▶ New Fed Chair Kevin Warsh stressed restoring price stability
 - ▶ Forward guidance was removed to refocus markets on economic fundamentals and incoming data rather than the Fed's policy response
 - ▶ Nine participants projected a 2026 rate hike though Warsh did not submit projections
- ▶ Treasury yields moved higher on a more hawkish Fed
 - ▶ Given current pricing of Fed rate hikes, we continue to find value in the front end
 - ▶ Longer-term rates face two-sided risks from inflation and growth dynamics
 - ▶ Credit spreads remain tight as resilient growth, stable labor conditions, and strong demand outweigh valuation concerns

Market Outlook

- The Federal Reserve (Fed) unanimously voted to keep the federal funds target range at 3.50%–3.75% during Kevin Warsh's first meeting as Fed Chair. While the policy decision was broadly expected, the meeting marked a notable shift in communication strategy as forward guidance was removed from the policy statement and replaced with a more analytical and data-dependent approach to policymaking.
- Chair Warsh repeatedly affirmed the Fed's commitment to price stability and announced five task forces focused on communications; balance sheet policy; data and analytical frameworks; productivity and employment trends (including AI); and the Fed's inflation framework. While the reviews could meaningfully change how the Fed communicates and evaluates economic conditions, the Committee's 2% inflation target remains outside their scope.
- Inflation remained above the Fed's target in May, though the picture was mixed. Headline PCE rose to 4.1% year-over-year, largely reflecting elevated energy prices. Core PCE increased to 3.4% year-over-year, reflecting ongoing stickiness in services sectors while goods inflation moderated as tariff-related pressures continue to fade. We believe inflation may be at or near its peak as the recent decline in oil and gasoline prices should help moderate energy-related inflation pressures in the months ahead. Potential flare-ups in the Middle East remain a key risk to the outlook.
- Economic growth remained solid on the surface as Q1 GDP was revised up to 2.1% from 1.6%. However, consumer spending made its weakest contribution to GDP since Q1 2022. Business investment remained a bright spot, particularly within technology, software, and AI-related capital spending.
- Labor-market data increasingly pointed toward normalization rather than acceleration. June payroll growth came in below expectations with 57,000 created, while prior months were revised lower. The unemployment rate ticked lower to 4.2%, though the bulk of that decline was the direct result of a declining labor force participation rate. At the same time, job openings remained elevated and layoffs stayed historically low, highlighting a labor market that appears to be cooling gradually rather than deteriorating abruptly. Wage growth continued to moderate and remained below headline inflation, reinforcing concerns surrounding household purchasing power and the durability of consumer spending.
